AT&T Cabling Systems FiberLine selected by 21ST Century Technologies

Dubai, October 2013

21st Century Technologies Ltd. has signed an agreement with AT&T Cabling Systems to upgrade its fiber optic infrastructure in Nigeria's main metropolitan business districts.

This relationship enables 21st Century to have access to the high-performance AT&T FiberLine cabling systems with the AT&T Millennium™ Lifetime Warranty.

AT&T Cabling Systems will also coordinate deployment and testing through certified installation partners.

"Our agreement with AT&T Cabling Systems ensures that we will be able to better serve our enterprise community in Nigeria, providing services based on an ultra-fast and robust technical infrastructure with the highest levels of reliability and resiliency. This is important to our company because Nigeria's businesses and corporates are growing and business communication services are of primary focus," said Wale Ajisebutu, vice chairman and CEO, 21st Century Technologies Ltd.

The agreement was announced at the recent GITEX exhibition in Dubai, held at the Dubai Exhibition Center in October, this year. AT&T Cabling Systems displayed at GITEX some of its products, including the AT&T CopperLine, FiberLine, CenterLine, RackLine and OutdoorLine.

"We are proud to support 21st Century's infrastructure expansion and modernization program. The combination of 21st Century's advanced telecommunications services and AT&T Cabling Systems' quality and brand provides value for both companies across Nigeria," said Serdar Goral, EMEA Sales director, AT&T Cabling Systems.

21st Century Technologies Ltd. is a fully converged telecommunications service provider for voice, data, private networks, VSAT, ISP and value added enterprise services. The service backbone is supported by a wholly owned world class fiber optic network. 21st Century has the most extensive fiber optic network in the Lagos metropolitan area.
