1 2 3 4 5 6 7 8

PIN Number

1.
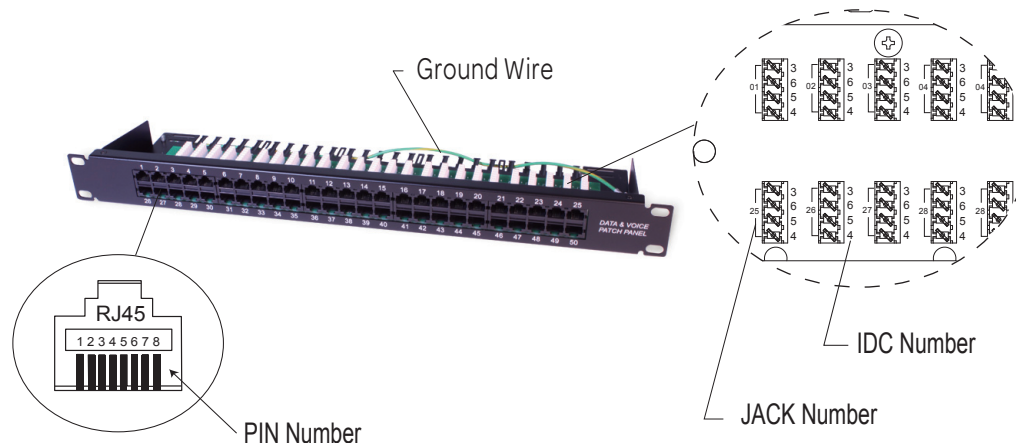

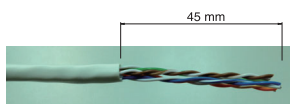

45 mm

Step 1:
Strip back approximately 45mm
(1.8inch) of cable jacket using
cable jacket stripper.

2.

Step 2:
View the IDC numbe printed on the circuit board
and determine proper location of conductors based
upon wiring scheme.
Place the conductor according to IDC numbering,
position punch down tool over conductor and press
down to connect the wires.

3.

Step 3:
Secure the cables to the cable
bracket using the cable ties provided.

Cable Tie
