AT&T CopperLine Installation Manual
AT&T CopperLine Panels
Snap-in Blank Patch Panels for Straight Jacks
AT&T P/N 13x00NV0xxA-SB1U

Mount the panel onto a suitable rack

Assemble the front and back supports as needed
Shielded panels must be bonded to the rack with the grounding wire

Snap the terminted jacks into the blank panel ports from the back side

Snap the horizontal cables into the back support tray

Insert the modular cords into the ports and use the front rings support as needed

Avoid bending, kinking or twisting the horizontal cables and the modular cords
